Subject: Anaconda Yerington OU1 Groundwater Tech Meeting June 29

Dear Jack and Anaconda Yerington Technical Stakeholder Group,

Please hold Wednesday June 29 for an all day technical meeting on OU1 / Groundwater.

EPA proposes that the meeting be held in Reno.

Jack, if you can please arrange a meeting facility that would be appreciated.

We are accepting agenda items but would like to propose that the OU1 Remedial Action Objectives tech memo be discussed in a separate call or meeting.

We propose at a minimum to discuss the OU1 Background Water Quality DSR including the comments submitted by EPA.

Thank you and best regards,

Dave Seter
Remedial Project Manager
